

Large house with its own pool and views of the Poble sea
Magnificent detached house, exposed brick, located in a residential area as close to the beach as to the countryside, in La Pobla de Montornés. A truly privileged natural environment, which also has excellent communication due to its proximity to the motorway and train with the large nearby cities, Tarragona and Barcelona. It has four bedrooms, three complete bathrooms, modern kitchen, garage and a multipurpose room on the semi-basement floor, which can be adapted as a gym, cellar, office ... whatever you want. The large south-facing living room has access to a generous terrace from which to enjoy wide panoramic views of the sea. The house is equipped with all the comforts, from air conditioning, electric security shutters, to underfloor heating (the most pleasant type of heating). And for summer enjoyment, a beautiful lawned garden with a huge swimming pool, and also views of the sea. Solid construction, with the best materials and an ergonomic design, which can continue to adapt to your tastes or needs.
